2 Release Version 2.6.10.2341

Models	Software Version	Comment
X7A	2.6.10.2341	

2.1 New Features

1. Support for specifying video call display format
2. Support for hiding device IP addresses
3. Support browsing camera videos in four grid format

2.2 Optimization

1. Optimized webpage contacts sorting by name
2. Improved Korean translation
3. Compatibility with VBeT 9200 BT Bluetooth headsets

2.3 Bug Fix

1. Fixed the issue where the phone occasionally crashes when connected to Bluetooth
2. Fixed abnormal ringing issues on the phone
3. Fixed the issue where exporting local contacts crashes when there are too many contacts on the phone
4. Fixed the issue where setting the time gets stuck under static IP on the phone

2.4 New Features Description

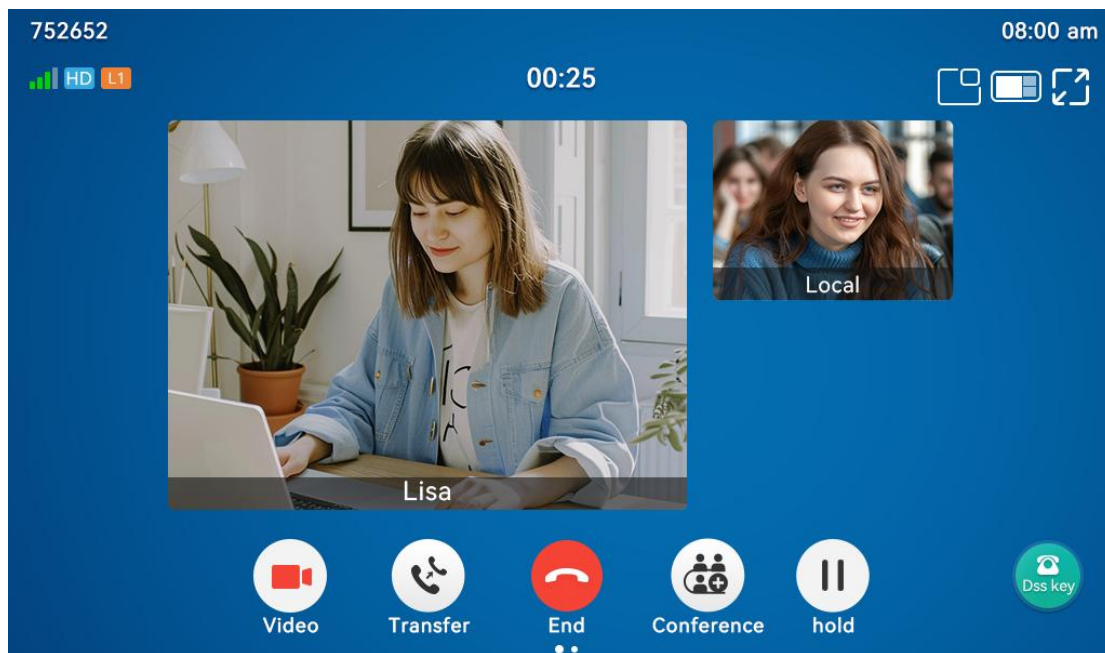

1. Support for specifying video call display format

Feature Description: The phone supports setting the video call display to fullscreen/non-fullscreen.

Implementation Details: Adjust the video display effect by configuring parameters.

- Configuration Item: Default video mode =
- Configuration Value:

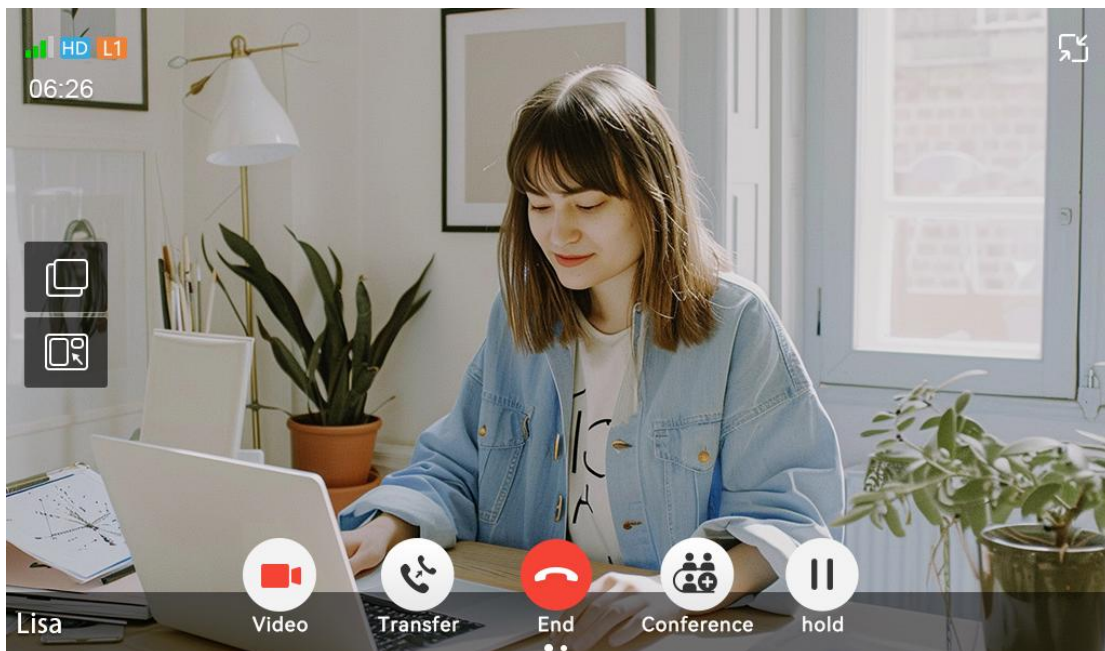

Value 0: Non-fullscreen combined display when the phone receives a video call
(image is a simulation)

Value 1: Fullscreen combined display when the phone receives a video call (image is a simulation)

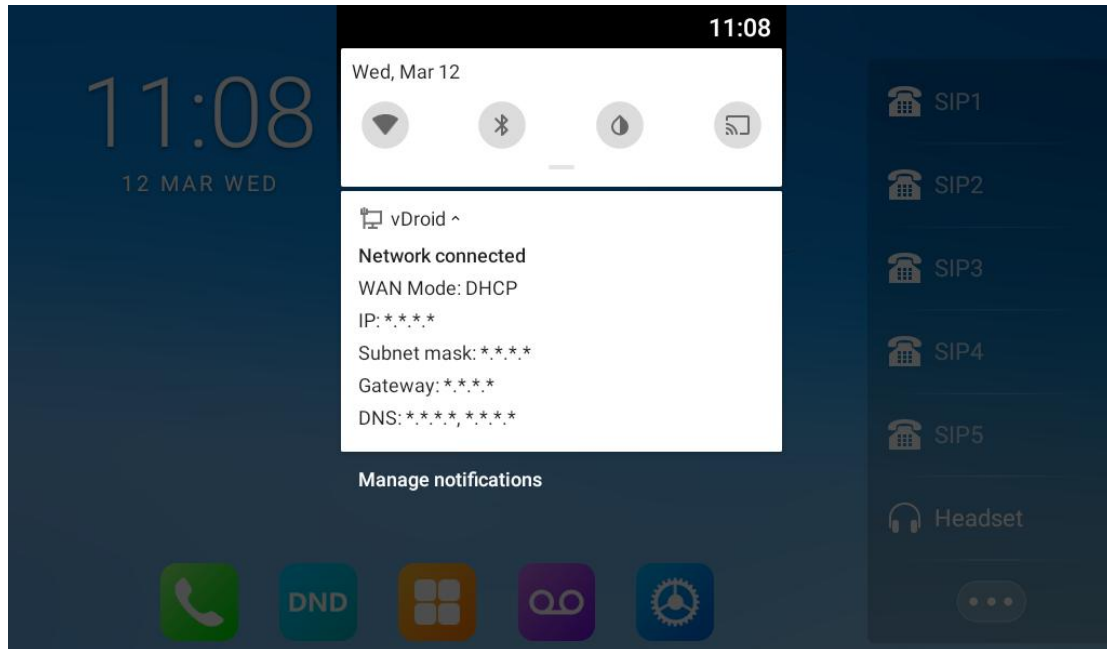

Value 2: Fullscreen display of only the remote party when the phone receives a video call (image is a simulation)

2. Support for hiding device IP address

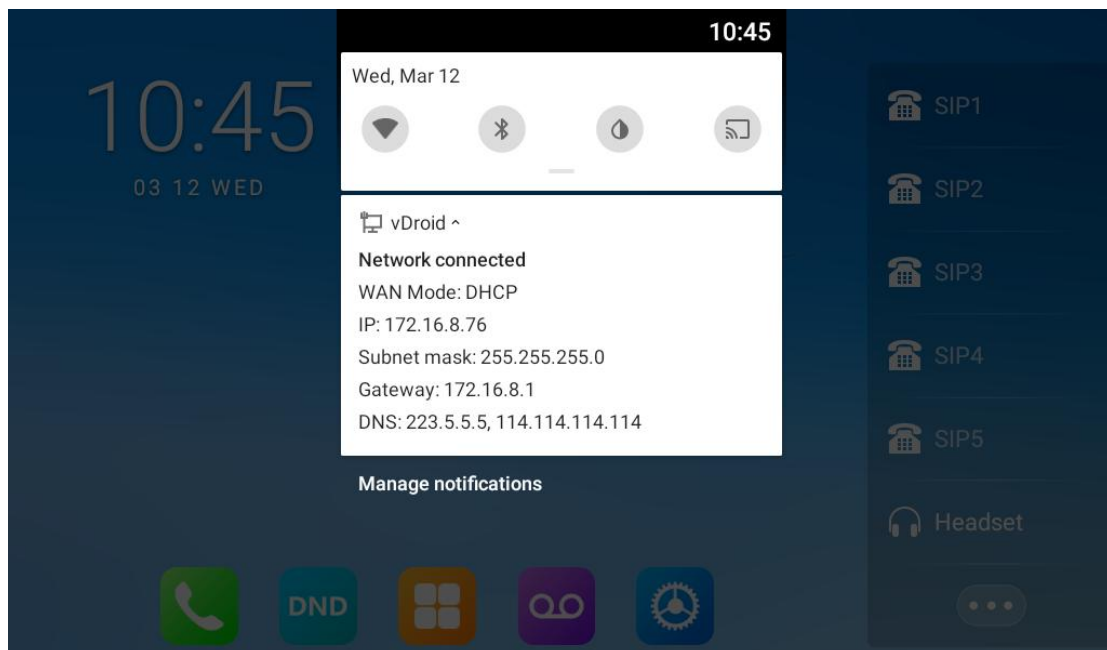

Feature Description: The phone supports hiding the network IP address to enhance device security.

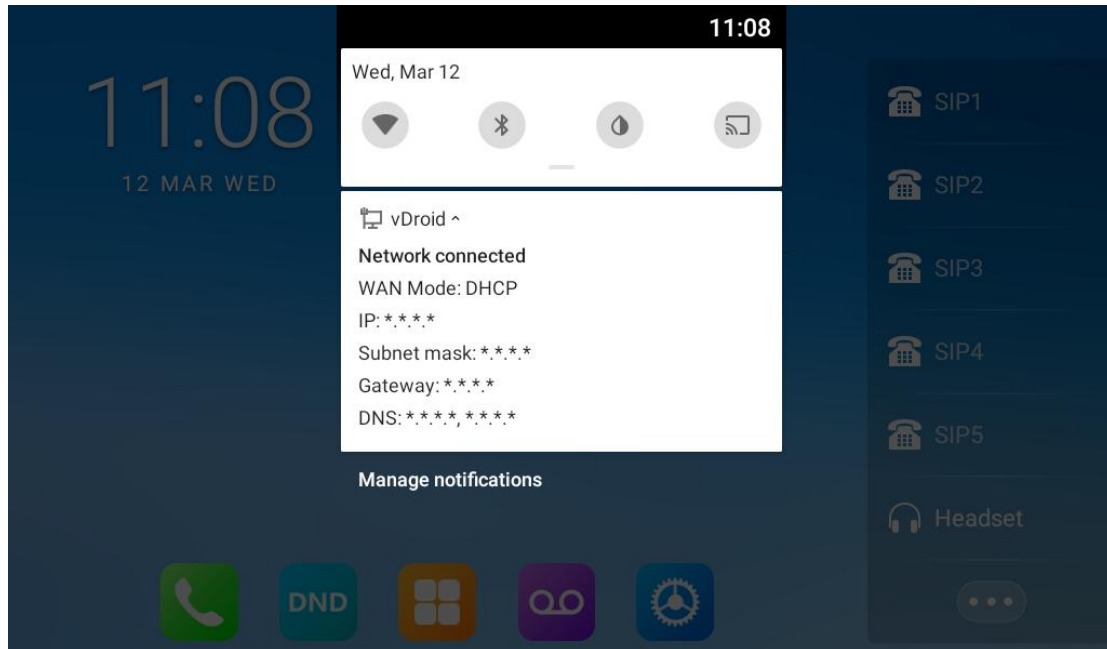

Implementation Details: Hide the IP address by configuring parameters.

- Configuration Item: Enable hidden IP address =
- Configuration Value:

Value 0: The phone normally displays the phone's IP address (default)

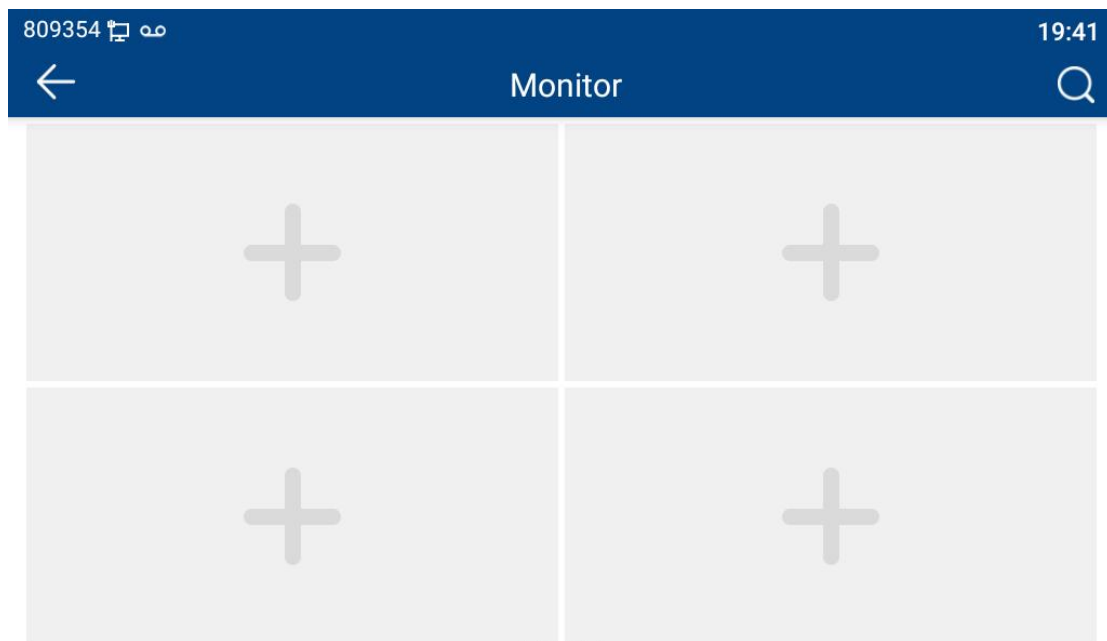

Value 1: The phone hides the phone's IP address

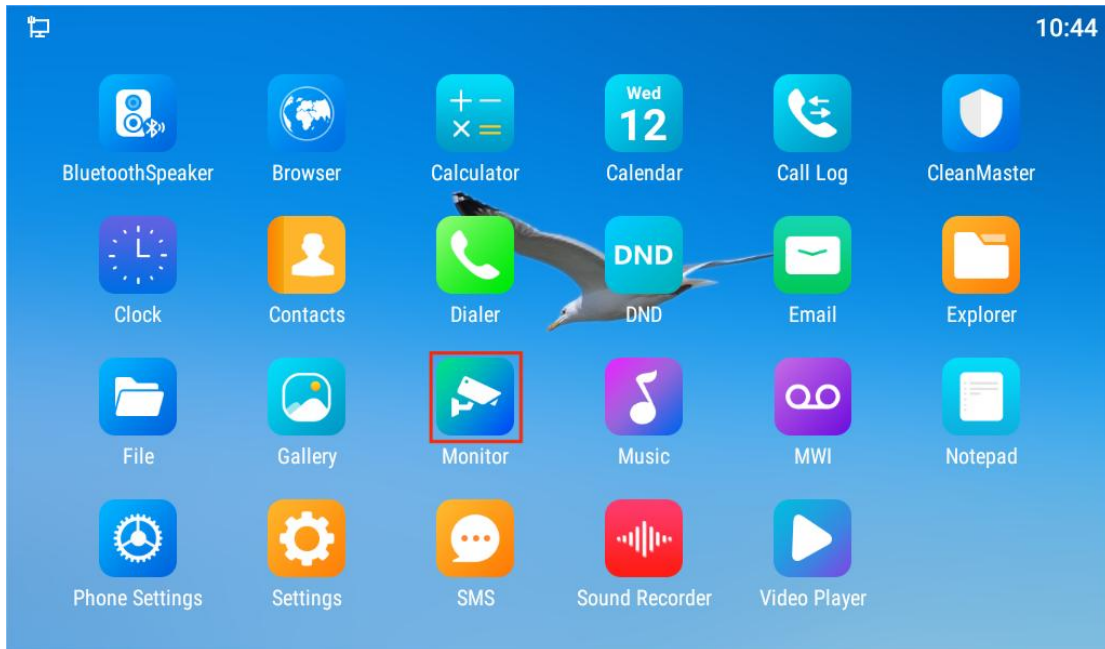

3. Support browsing camera videos in four grid format

Feature Description: The phone supports browsing four video streams simultaneously.

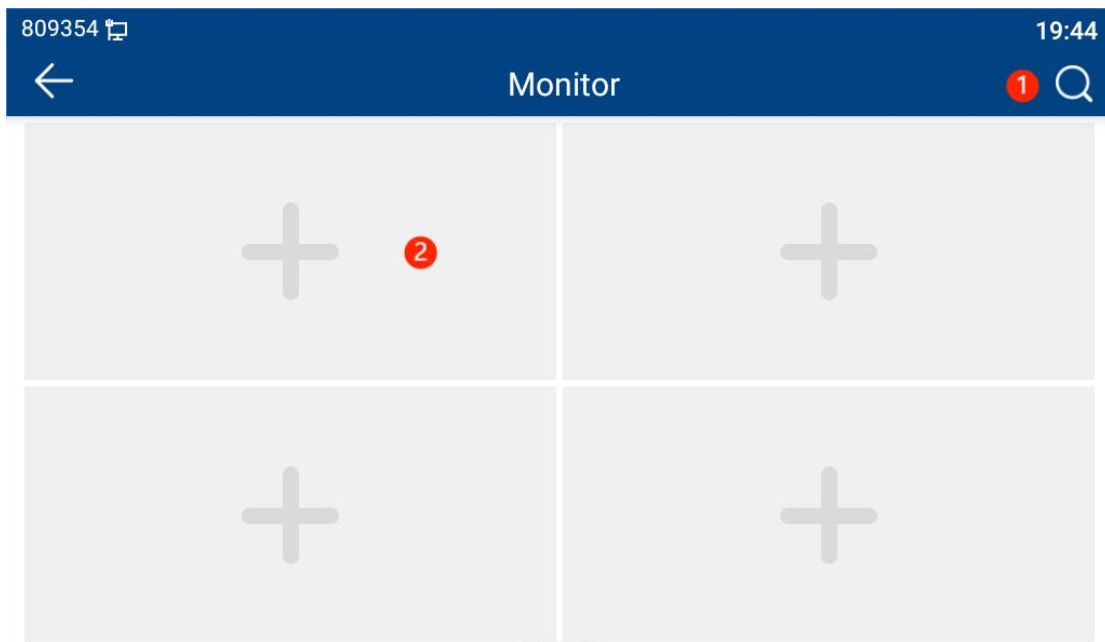

Implementation Details:

1. Select the surveillance app on the application interface to enter.

2. Choose between ① automatically searching for nearby camera devices or ② manually adding nearby camera devices.

3 Release Version 2.6.10.1996

Models	Software Version	Comment
X7A	2.6.10.1996	

3.1 New Features

1. Supported Display of Contact Avatars in LDAP Phonebook
2. Supported Display of Custom Configuration Items in LDAP Phonebook

3.2 Optimization

1. Optimized Input Length for LDAP Phonebook Configuration Items
2. Optimized Display Effect of LDAP Contact Organizational Structure
3. Optimized the display effect of the current duration in the video interface.
4. Optimize Korean and Portuguese translation.

3.3 Bug Fix

1. Fixed the Issue of Manually Set Time Failing After Reboot
2. Fixed the Issue of Video Conference Display Freezing After Multiple Screen Switches
3. Fix the issue of exporting log errors
4. Fix the issue where contacts cannot be added after importing them into the webpage

3.4 New Features Description

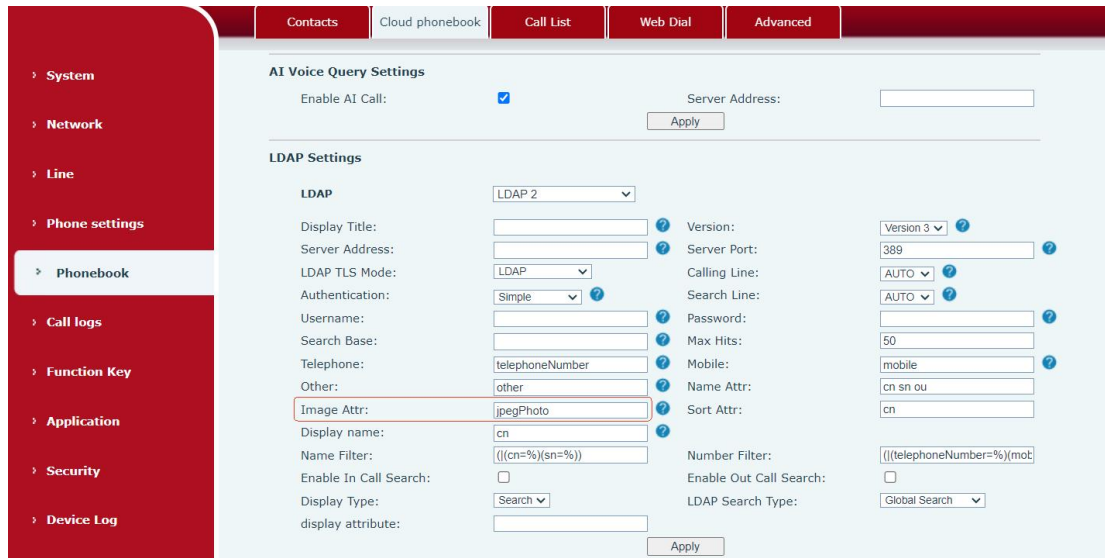

1. Supported Display of Contact Avatars in LDAP Phonebook

Feature Description: If the LDAP phonebook server contains avatar attributes, the phone can display the contact's avatar.

Fanvil Technology Co., Ltd

Add: 10F, Block A, Dualshine Global Science Innovation Center, Honglang North 2nd Road, Bao'An District, Shenzhen, China
Tel: +86-755-2640-2199 Fax: +86-755-2640-2618 Email: support@fanvil.com www.fanvil.com

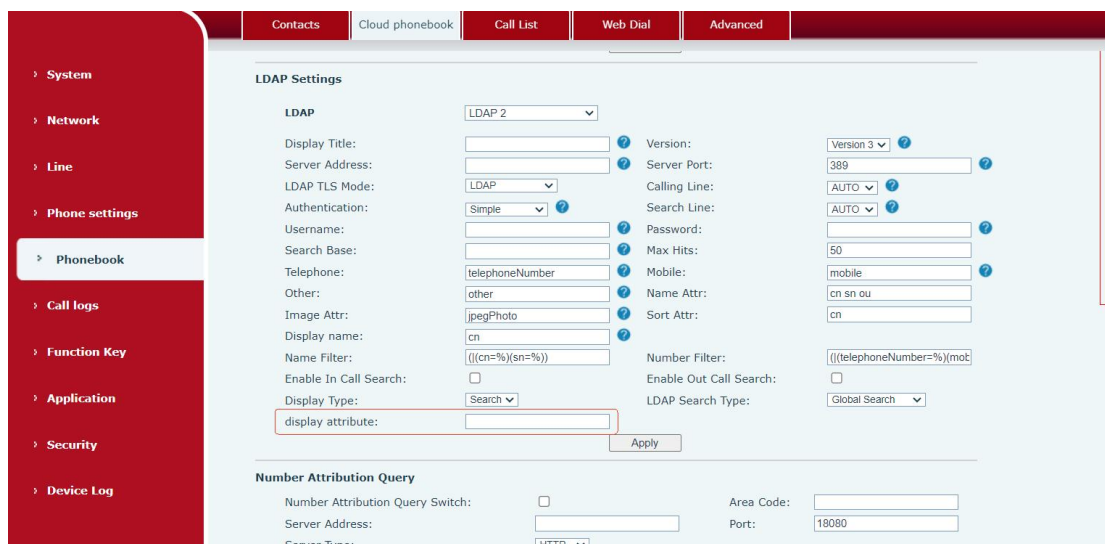

Implementation Details: Enter the phone's web page, navigate to [Phonebook] - [Cloud Phonebook] - [LDAP Settings] - [Image Attr], and fill in the relevant fields for the avatar attribute. The phone will then display the contact's avatar.

2. Supported Display of Custom Configuration Items in LDAP Phonebook

Feature Description: Adds attributes that can be displayed for contacts in the LDAP phonebook.

Implementation Details: Enter the phone's web page, navigate to [Phonebook] - [Cloud Phonebook] - [LDAP Settings] - [display attribute], and fill in the relevant attribute fields for the contacts, such as position, email, etc. Separate multiple attributes with spaces, with a maximum of 4 custom attributes supported.

4 Release Version 2.6.10.988

Models	Software Version	Comment
X7A	2.6.10.988	

4.1 New Features

1. Iteratively update the brand new UI interface
2. Dsskey can support 116 shortcut keys
3. Supports IPv6 and IPv4&IPv6 modes
4. Add the function of adding voice conference members through multiple selections
5. Add push XML function
